Security and Technology Features

- CCTV Cameras installed
- Fire extinguishers and trolleys
- Warehouse Management Software (WMS)
- Racking systems
- Alarm system
- Security Guards
- Smoke detectors
- Reliable and trusted staff
- Over 40 years of continuous and safe operations

Ability to incorporate Racks as well as High-Value Cage

- TCO Logistics can help install a customized high value cage around the storage area for enhanced security should there be a need by the client
- Details and terms of the cage will depend on detailed discussion with the client.

TCO is a warehousing partner for over 100+ local and multi-national companies

Case Study 1: Multiple Solar Clients

- Various leading solar panel importers and distributors have been working with TCO Logistics for over three years and have stored and dispatched over 300+ Solar panel containers
- TCO managed safe-offloading, inventory management and order fulfilment of over 15 different SKUs across LONGI, CANADIAN, JINKO and JA brands.
- TCO shared stock reports as well as other ledgers electronically with the client
- Services used: Warehousing, inventory management, handling and dispatching

Case Study 2: Nestlé

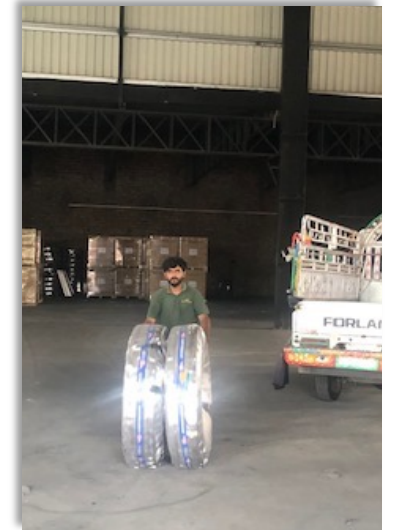

- Nestle's sales activation partner, Heliumm (Pvt) Ltd. utilizes TCO warehouses to store sales activation stock.
- Even though their sales activation partners have their own warehouses in Lahore, they rely on TCO's flexible warehousing terms and are able to send excess stock to our warehouses on short notice.
- Delivery order protocol is maintained. Most recently several thousand cartons of **Everyday** were stored in TCO's warehouses and then delivered to various cities across Punjab
- Services used: Warehousing, inventory management, transport, and handling

Case Study 3: Tyre Sale Service

- Tyre Sales Service, a company head quartered in Karachi used TCO Logistics' 3PL service to manage their tyre stock in Lahore
- TCO shared stock reports as well as other ledgers electronically to Tyre Sales Service Offices in Karachi as well as Lahore
- WMS was used to track various SKUs and their stock levels
- Services used: Warehousing, inventory management, handling

Case Study 4:

- Childlife Foundation, a leading not-for profit working out of Karachi utilizes TCO's warehousing, inventory management and delivery services to centralize their procured stock in Lahore.
- Childlife foundation recently undertook the project of upgrading the Emergency department of Mayo Hospital, Lahore.
- TCO warehouse received the procured stock and stored it safely in the warehouse.
- Upon delivery order instructions, TCO delivered the stock ranging from Air-conditioners to Emergency room beds/furniture and fixtures to the Emergency Room site in Lahore as required.
- Services used: Warehousing, inventory management, transport, and handling

Case Study 5: **Panasonic®**

- One of the largest distributors of Panasonic products in Pakistan utilizes TCO as a distribution center.
- TCO handles approximately 70 (20-foot equivalent) containers of Panasonic products per annum ranging from LCD TVs, fridges, vacuum cleaners, to juicer blenders and sound systems etc.
- Panasonic's distributors are able to leverage TCO's central location in Lahore to transport their inventory to various wholesale markets in Lahore as well as in other cities of Punjab and KPK.
- Services used: Warehousing, inventory management, transport, and handling

Case Study 6:

- MG Motors recently hired TCO Logistics to store over 50+ containers (40-foot) in our Customs Bonded Warehouse
- TCO managed safe-offloading and stacking of the sensitive as well as valuable cargo in their centrally located warehouses in Lahore
- TCO shared stock reports as well as other ledgers electronically to MG's Offices in Karachi as well as Lahore
- Services used: Warehousing, inventory management, handling

TCO Logistics Advantages & Value Proposition

1. Flexible terms with Short-term and Long-term warehousing options
2. Creating value for customers through full-service warehousing operations including inventory management utilizing Warehouse Management Software(WMS)
3. Multi-party warehousing with large scale operation resulting in economical and reasonable charges
4. Delivery order protocol for secure deliveries
5. Secure premises with access for 40-foot/20-foot containers and heavy vehicles
6. Multiple transportation/logistics options
